14. English Elective:

---

- Electives may be satisfied with any course taught by English Department faculty.
- Of those courses, two may be creative writing workshops.
- One of your courses must satisfy the **Diversity in Literature distribution requirement**. Courses that fulfill this requirement can be found on the department website.
- Two "related courses" from outside of the department may count toward these electives. For course approval, students must submit a short petition to the Director of Undergraduate Studies. This petition should include the course syllabus, any papers you wrote for the course, and a short paragraph outlining why you'd like to include this course in your English plan of study.
